Law Enforcement

Accurint: New Tools

Accurint® Public Safety Marketplace offers law enforcement a way to seamlessly identify trusted providers of cutting-edge solutions to fit the needs of their agency. With single sign-on access to the Marketplace offerings through Accurint® Virtual Crime Center, users can purchase various products and tools that have been enhanced by the LexisNexis® data assets and linking technology. This allows users access to fully leverage their detailed law enforcement data with other important modules, saving time during critical investigations.

We are excited to announce the addition of our newest connected partner in the Accurint Public Safety Marketplace: **Insight LPR.**

Insight LPR offers **MX Guardian**, a powerful cloud-based system that seamlessly integrates with Insight LPR's purpose-built License Plate Reader (LPR) cameras and nationwide commercial LPR data, expanding the reach of your investigations. To learn more about this new solution offering, and how it works together with Accurint Virtual Crime Center, please visit our Marketplace website.

To see this in action, attend our webinar, ***Better Together: Accurint® Virtual Crime Center + Insight LPR***, and learn how Insight LPR works.

Register Today

In collaboration with Insight LPR, LexisNexis® Risk Solutions is offering authorized and credentialed agencies the opportunity to try Insight LPR's Guardian MX solution with a **60-day Free Trial** via single sign-on through Accurint Virtual Crime Center. **To take advantage of this limited-time, exclusive offer, customers must reach out to their account representative and express their interest in testing this integration before April 30, 2025.**
